New York, NY

Professional Experience

Juni Learning / Coding Instructor

October 2019 — Present · New York, NY

- Taught the fundamentals of programming, such as loops and conditionals, by creating projects on Scratch and Python to 8 students from age 8 to 18, one on one, once a week.

Women Rewriting the Code / NYC Leader

September 2019 — Present · New York, NY

- Collaborated with partner and local companies to organize and execute 2 events per semester with RTC leadership.
- Gathered 100 aspiring programmers from various schools in the New York region to socialize and expand their network.

Bank of America / Technology Analyst Intern

June 2019 — August 2019 · New York, NY

- Built a live dynamic reporting system, connecting JIRA and Confluence via Python on Jupyter Notebook.
- Designed and developed a Capture the Flag inspired game to enhance the cyber security training experience for the employees of the bank using an AGILE framework.

Activities

Coordinator / Women in Computer Science

September 2018 — Present · New York, NY

- Organized bonding events for members of the club, coffee chats, and panels in which students could share their experiences from their internship and preparation.

Peer Advisor / First in Family (FiF) - Columbia

August 2019 — Present · New York, NY

- Offered support and advocacy for FiF students from a FiF student perspective by attending FiF events monthly and participating in coffee chats

Treasurer / Artists Reaching Out - Columbia

February 2019 — Present · New York, NY

- Volunteered to teach young children about the significance of art both historically and in real life applications.
- Managed and organized all of the team's finances.
